

—PRESS RELEASE— December 10, 2010

SIS-TECH Introduces Comprehensive Service Package For Improving Mechanical Integrity and Reliability of Instrumentation and Process Control.

Package Components include:

- Assessments of the existing Mechanical Integrity Strategy
- Assessments of installed Instrumentation
- Development and/or enhancement of Maintenance procedures and practices
- Development and/or enhancement of Operations procedures and practices
- Operator process simulation training
- CHAZOP
- Life Cycle data/documentation management
- Reliability process development and implementation

The service package is intended to:

- Optimize Production Capability
- Ensure Product Quality and Customer Loyalty
- Ensure Safe and Reliable Operations

The entire service package can be systematically implemented as a whole or in parts to fill a particular gap in an operating facilities work process. For more information call 281-922-8324, x36 or email pskweres@SIS-TECH.com

And don't forget — come by our booth at the Texas A&M Symposium for the Process Industries on January 25 and 26 2011 to find out more.
